

Onslow

AUSTRALIAN WHITES & ANGUS

Onslow's interest was raised when Tattykeel exhibited and sold Australian White Rams at Dubbo in 2010.

Being industry designed sheep they cover the basic credentials for functional, efficient, fertile animals with the carcass producing high yielding, taste and tenderness.

Over the past 18 months, in drought conditions at Onslow, the Aussie White ewes have gone into lamb, raised a quality lamb and maintained excellent condition.

Last season Onslow Australian White lambs sold for \$225 and yielded 54.7%. Then Onslow received \$180 for 12-14 week old lambs from maiden ewes, in drought conditions. We look forward to a decent season and to capitalise with a consistent, sustainable product.

Onslow Australian White Rams for Sale.

Based on Tattykeel ewes and rams.
